

2010 TAX INFORMATION

The **IRS no longer mails** income tax packages, **including** forms, schedules and instructions to **individuals and businesses.**

The **IRS** is taking this step because of the **continued growth** in **electronic filing** and the availability of free options to **taxpayers** as well as to help **reduce costs.**

Forms, instructions and publications can be downloaded and printed at www.irs.gov. Printing in the library is subject to standard library printing fees.
