

Internet Safety

We strongly recommend that parents supervise their child's Internet sessions and let them know if there are materials which they should not access. Parents should also advise their children of safety and security issues when using the Internet, and warn them against the disclosure of personal information when using electronic mail, chat rooms and other forms of direct electronic communications. Parents should urge their minor children to keep in mind the following safety guidelines:

- Never give out identifying information such as home address, school name, or telephone number.
- Never arrange a face-to-face meeting with someone via the computer without parents' or guardians' approval.
- Never respond to messages that are suggestive, obscene, threatening, or make one uncomfortable.
- Have parents or guardians report an incident to the National Center for Missing and Exploited at 1-800-843-5678 if one becomes aware of the transmission of child pornography.
- Remember that people online may not be who they say they are.
- Remember that everything one reads may not be true.
