SEASONS' DELIGHT

It's such a delight to see the Seasons, to hear their morning call It's such a delight to see them all

It's such a delight in the summer, When you go to the pool and make Cannonballs

It's such a delight in the autumn, When the trees change their colors And the leaves start to fall

It's such a delight in the winter, When the children build snowmen And fight with snowballs

It's such a delight in the spring, When the flowers all bloom And the trees grow up tall

It's such a delight to see the Seasons, to hear their morning call It's such a delight to see them, summer, winter, spring and fall.
