Linking Your Records

Linking patron records is solely intended to expedite circulation transactions by allowing for quick navigation between one linked record and the next.
- Linking records does not give a patron the ability to view, request or borrow items on a card belonging to a patron to whom they are linked.
- In situations where one patron (e.g. a spouse) would like to be authorized to collect requested items held by another, both patrons must first confirm this in person with a Library staff member. A note will then be placed on the records of both patrons. This applies only to active hold requests, not additional checkouts on the card.
