

Student Hotspot Quick Start Guide

What's in the box?

1. Hotspot
2. USB Cable with charging adapter
3. Quick Start Guide/Acceptable Use Policy

Connect a Device to Your Hotspot

1. Turn on your Hotspot and your Wi-Fi-enabled device. Note: It can take several minutes for your Hotspot to connect with the Sprint network.
2. Open the Wi-Fi application or controls on the computer or Wi-Fi-enabled device that you want to connect to your Hotspot.
3. Find your Hotspot's Wi-Fi name and enter your password to connect to the internet.

To find your hotspot name and password see your Hotspot model below.

Wireless R850 Mobile Hotspot

Once device is powered on and ready, press the power button one time to display the Wi-Fi name: Tulsa Library###. Press the power button again to display the password.

ZTE Warp

Press the Function (Func) button twice to scroll to device Info. Press the Power button to select it. You'll find the SSID: Tulsa Library### which is the device name and the password on this display screen.

Pocket Wifi

Press the lock button on the top of the Hotspot. Tap the lock icon on the screen. Tap the Wi-Fi button on the screen. You'll see the name of the 5.0 GHz Hotspot, Tulsa Library###, and the 5.0 GHz password by scrolling down the screen.

MiFi 8000

The Wi-Fi name, Tulsa Library###, and password are listed on the display screen.
