How long has TCCL offered the Seed Library?
It started in the fall of 2014, with two locations – Nathan Hale and Suburban Acres. It is now at nine locations.

Why did TCCL create the Seed Library?
Well, we first looked at the idea because our customers suggested it! The Seed Library breaks down barriers and opens up access to gardening, to healthy food, to heirlooms and all the stories they tell, to the many foodways in our community, to biodiversity and ecological resilience.

Grow your garden with the TCCL Seed Library!
Spring has sprung and that means it is time to get your garden started!
A bounty of vegetable, herb and flower seeds are available to check out from the TCCL Seed Library.

How long has TCCL offered the Seed Library?
It started in the fall of 2014, with two locations – Nathan Hale and Suburban Acres. It is now at nine locations.

Why did TCCL create the Seed Library?
Well, we first looked at the idea because our customers suggested it! The Seed Library breaks down barriers and opens up access to gardening, to healthy food, to heirlooms and all the stories they tell, to the many foodways in our community, to biodiversity and ecological resilience.
> How long have you been involved with the Seed Library and why did you get involved?
From the get-go! I had become interested in seed saving by accidentally letting some carrots go to seed, heard about the idea of a seed library and immediately knew this was something I wanted to make happen.

> How does the TCCL Seed Library benefit the community?
It brings people into gardening, expands their options, engages them in seed saving and gets people excited about well-adaptive varieties.

> What types of seeds are available through the Seed Library?
Seed availability is seasonal and depends on many factors. Varieties that have been available in the past may not be now. We try to offer seeds around their appropriate planting times. If there is something you would like that we do not have, let us know!

> The Seed Library is a project of the Green Team. Please give us some more details about the Green Team.
Right now, the Green Team is working on lots of exciting programs throughout the system like bean growing kits for kiddos and propagating houseplants, as well as some YA programming for the summer. We also share info with staff about green topics like recycling and reuse.

> What advice would you offer someone who has never tried gardening before but is interested in growing their own food or flowers?
Start small and follow your passions! The biggest challenge in Oklahoma gardening is keeping up during the summer heat, so make sure your garden is small enough for you to keep watered and weeded. Pay attention to your neighbors’ gardens and at the farmers market. Grow whatever brings you joy. Try anything.

The TCCL Seed Library is a collection of open-pollinated and heirloom seeds that you can borrow to plant and grow at home.

Check out seeds (up to 15 packets per season) from the library and grow your garden. Save seed from the best plants and return it to the library for others. Use the library catalog to search for seeds using the keywords “seed library” and post comments about what you’re growing, or go see what’s available at any of our Seed Library locations.

Our seed collection depends on donations, availability and seasonality. You’ll see different seeds available at different times, so check in frequently!

By saving seeds as a community, we help create local seed stocks that are better adapted to our Midwest climate.

Díaz y recuerdos

Por Ana Davis, asistente bilingüe de servicio al cliente, Biblioteca Regional Martin

Dicen que recordar es volver a vivir, y si eso es así, dejen que les cuente un poco de los recuerdos de mi niñez y mi adolescencia en México. Ahora que el mes de abril está aquí, recuerdo cuando mis papas nos llevaban a mí y a mi hermano al parque la Loma, sobre todo en este mes, ya que en México y varios países de Latinoamérica celebramos el día del niño, además de que servía como punto de reunión para todos los adolescentes que tomaban la decisión ejecutiva de no ir a clases, en pocas palabras faltaban a clases.

¡Me acuerdo mucho del trenecito! Ese viaje en él, alrededor del parque era una parada forzada, si no te subías al tren era como si no hubieses ido al parque, así que recordar es volver a vivir, y si eso es así, dejen que les cuente un poco de los recuerdos de mi niñez y mi adolescencia en México.

En cuanto a los recuerdos de mi niñez, no pude evitar mencionar a este trenecito que recorría el parque, y que era una obligación para mí y a mis hermanos, no podíamos dejar de subirnos a él si no queríamos que nos consideraran como si no habíamos ido al parque.

En resumen, el recuerdo de mi niñez y adolescencia en México es un recorrido emocional y cultural que no puedo olvidar.

Por eso, creo que es importante recordar estos recuerdos, ya que nos permiten vivir de nuevo momentos que pueden ser significativos para nuestra vida.
Biblioteca de semillas

que ese viaje no podía faltar. Uno de los lugares más emblemáticos de la capital Nayarita es sin duda el parque la loma, el cual forma parte de la vida de generaciones completas, en Tepic, Nayarit México, un día de descanso es sinónimo de una visita obligada a este hermoso pulmón de la ciudad, este parque es el mejor lugar para caminar y despejar tu mente, así como para observar y disfrutar de los árboles, flores y todas esas áreas verdes. Gracias a esos recuerdos, he podido crear mi propio “parque” en casa. Y si te interesa la jardinería te invito a que le des un vistazo a la biblioteca de semillas que TCCL ofrece ya que encontrarás una gran variedad de semillas de flores, plantas y vegetales, ve a cualquiera de nuestras nueve bibliotecas o checa en línea donde podrás encontrar una gran variedad de semillas de temporada, y también libros en jardinería. La disponibilidad de semillas es estacional y depende de muchos factores.

Recuerda que con tu tarjeta de la biblioteca de la ciudad-condado de Tulsa podrás llevarte a casa 15 paquetes de semillas de temporada, además no importa si tienes experiencia en jardinería; contamos con varios formatos como libros o eBook’s que te podrán ayudar.

La biblioteca de semillas de TCCL es una colección de semillas de polinización abierta y reliquia que tu puedes tomar prestadas para plantar y cultivar en casa.

Saca semillas (hasta 15 paquetes por temporada) de la biblioteca y cultiva en tu jardín. Guarda las semillas de las mejores plantas y devuélvales a la biblioteca para los demás. Usa el catálogo de la biblioteca para buscar semillas usando las palabras clave “seed library” y publica comentarios sobre lo que estás cultivando, o ve lo que está disponible en cualquiera de nuestras ubicaciones de la biblioteca de semillas.

Nuestra colección de semillas depende de las donaciones, la disponibilidad y los climas estacionales. Verás diferentes semillas disponibles en diferentes momentos, ¡así que consulta con frecuencia!

Al guardar semillas como comunidad, ayudamos a crear existencias de semillas locales que se adaptan mejor a nuestro clima del Medio Oeste.
