# Tips for Parents!

## LITTLES (birth to pre-K)

- Babies and young children are not yet able to read on their own. However, research shows that **TALKING, SINGING, READING, WRITING** and **PLAYING** every day will help them get ready for reading.
- Attend Build A Reader storytimes for a fun time for your children but also to learn more about what you can do at home to support your child’s literacy growth.

## CHILDREN (kindergarten to fifth grade)

- Allow your child to check out books based on his or her interest. When children choose what to read, the desire to read is stronger.
- Encourage your child to read to you – and read to your child! Even school-aged children enjoy the care and attention of adults during read-alouds.
- Provide your child with a comfortable, quiet place to read.
- Attend fun events and programs for children at the library.
