

Assemble Your Team

This lesson could be used to jump start students' creative writing skills, or it can be an easy art activity where students create their very own Equipo Fabuloso!

1. Read Team Up with the students or have them read it independently.
2. Then use these discussion questions to help them brainstorm what they want to draw or write.
 - What would your Luchador name be?
 - What would your outfit look like?
 - Who would be on your equipo/team and what would their names be?
 - What is your equipo doing? Are they fighting their opponents, helping their community, or simply deciding what to eat for lunch?
